Review for Vito Vricella

Excellent advice on glasses or contacts. Checked online and prices were comparable (apparently all quality glasses are expensive). Happy with the purchase of my new glasses. Staff was efficient and Pleasant.

My glasses broke after having them for a short 6 months (I got a cheaper frame due to having contacts also) I took them in yesterday thinking I would have to wait 2 weeks to get them back. The lady that helped me was able to just switch my lenses to a different frame and I was able to walk out with them about 5 minutes later. Very happy!

Review for Vito Vricella

Dr. Vricella and the staff at Fenton Family Eyecare were great. They were very friendly and put my children at ease right away. When we left, my ten year old daughter commented that she liked how Dr. Vricella actually talked to us about school and family stuff. My fifteen yr old son agreed that he liked Dr. Vricella. Our eye exams were very thorough, and the staff was very patient with us as we made our decisions on eyeglasses.

Review for Vito Vricella

I really enjoyed my visit at Fenton Family Eye Care. From the very beginning when I first called to make the appointment, they were helpful by making it clear what my insurance would cover and what it wouldn't cover. They were patient and helpful when I had to reschedule last minute due to work and they squeezed right in at the next available appointment. They were even willing to help me through the phone as I was filling out my registration forms from home. The visit itself went fast and smooth, they really clarified what was going on with my eyes and how getting glasses would help me. The staff and Doctor at Fenton Family Eye Care were all great!

Review for Vito Vricella

Excellent reception when we (my daughter, my son, and myself) walked in. Friendly staff that took the time to make sure all of our needs were met. With my daughter getting contacts for the first time AND my son getting glasses for the first time, all in the same day, the staff ensured that it would be a smooth transition by answering all questions... Most before we even had to ask. I would highly recommend Fenton Family Eye care to everyone.

From the moment we walked in the door and was greeted my the ladies up front, to the time we met with the doctor (and found out my daughter needed glasses) we were treated with EXCELLENT service. Unexpectedly needing glasses was a 1st for us. My daughter was in no way terrified, because she felt comfortable and I was confident in the knowledge of the staff. Thank you! Natalie Patton

I was very pleased with the assistance I received after purchasing glasses for the first time at Fenton Family Eyecare. At first, I had some trouble seeing out of my new progressive lenses, but Cassie was very helpful in making sure I was pleased with them and went out of her way to see what was the problem. She corrected the problem and I was so glad she cared so much. She gets an A+ for her efforts in making sure I was satisfied with the new lenses. I greatly appreciated it! I am very pleased with my services there.

Rick was very patient with me when I came in to exchange my frames for my prescription. I was probably not going to ever return to the practice but Rick's customer service was what was needed for me to continue to return to this practice. I had a not so pleasant experience that I will not go into since all is well now.

Review for Vito Vricella

I have seen three different doctors at this practice and Dr. Vricella is the best by far. He was very thorough and answered all of my questions very well. He is very personable and I'm glad he addressed the large amount of changes to the office over the last few years. The staff was extremely friendly, patient, and accommodating working with me to find the right glasses and being honest about the ones that didn't look good for my face shape. It seems like the office is finally on stable ground and I look forward to my next visit.

This visit was the best visit to an eye doctor I've ever had. The staff was very friendly. They tighten my glasses up, which made them fit like new again and I didn't even have to ask. My eye doctor was friendly and seemed very knowledgeable. No one tried to get me to "upgrade" anything or add fees at any time (the bane of my last eye doctor). Defiantly will be returning when I need new glasses, contacts, or have any eye issues!

Review for Vito Vricella

I'm a brand new patient that came in this week on a referral from a friend and colleague. My visit was for a second opinion on a reoccurring eye issue, I'm so glad I went! I was impressed by the practice from the initial phone call

to make the appointment. From the ladies that work at the front desk to the doctors, everyone is personable, friendly, makes you feel like they truly know you and actually care. Even when I walked in for a follow up a week later the office staff knew me by name when I came through the doors - what a difference from my old office! Dr. V answered all of my questions in great detail and took the time to explain things in ways that make sense. I would recommend them to anyone looking for a doctor and office that is less about you being nothing but business and more about relationships and actually caring about overall health and wellness.

Since the take over I am just as happy with the new staff as I was before. They do a great job. I tried contacts for the first time in my life this year. However, I could not find a pair that I liked. I went back three time and tried three different pairs but my right eye could not get used to them. The staff was more than helpful. I eventually gave up on the contacts and purchased my glasses there. I am very satisfied

Review for Sara Day

I have never been impressed with a doctor's office on the first visit like I was with this office. Casey was the one originally helping me before I saw Dr. Day. She was so kind which helped to take away the nervous feelings. Dr. Day was just as wonderful. She took her time with me and made me feel comfortable. The staff who was helping me find glasses was just as accommodating. Overall, the office seemed to be run efficiently, which I appreciated, as time is valuable. I will be recommending this office to many!!

Review for Sara Day

If you're reading this review, I'm guessing that it's because you're looking for an eye doctor and hope to research through reading client reviews. If so, I hope you'll take my words to heart. Have you ever found something amazing....something so wonderful that the toddler in you comes out and thinks 'let's be selfish and keep this for ourselves'?? But, of course, you're an adult and common decency pushes the toddler back into her stroller where she belongs. You end up screaming your blessings from the rooftops instead! Yeah....I've been there....and that's why I'm willing to share these words. I cannot even begin to express how much our family has come to adore Dr. Day and her staff. Her practice is very professional, with top of the line technology and services. But all that means little to me when compared to the caring and compassion we've seen in Dr. Day and her wonderful staff. It's the HEART behind the practice that sets Fenton Family Eyecare so far above the rest! It's Dr. Day seeing us on Thanksgiving Day to care for my son's eye wound. It's the smiles on the faces of the office staff when you walk in the door. It's the hour you've spent having your eyes examined that felt like just moments because you've had so much fun talking to Dr. Day. It's opening the mailbox a week after your daughter's appointment and finding a huge packet of information that Dr. Day thought might be helpful for your daughter's learning disabilities. It's the fact that they truly care about you as a person, not just as money source. We'd spent many years going to a 'cookie cutter' practice before we got disenchanted enough to search for a new eye doctor. And I thank God that He led us to Fenton Family Eyecare! An appointment feels like going to visit family (except that you enjoy every minute of the appointment! LOL) Why not give Fenton Family Eyecare a try? You've got nothing to lose and everything to gain. :)

My son has special needs, and therefore requires special handling. The staff at Fenton Family Eyecare, from the receptionist, to the technicians to Dr. Day herself are absolutely fantastic with him. They are always very patient, take the time to make sure he understands what is going to happen and why they are doing things, and actually care about connecting with him. The fact that they make a conscious effort to develop a relationship with him is more than I ever could have hoped for. I highly recommend this office to anyone with children - particularly those with special needs!

Everyone is very friendly and it is obvious that my eyecare is important to each and everyone I had contact with on my visit. Previously we had an urgent need for eyecare and we were worked in that same morning which allowed our family to feel better about symptoms that were being experienced. We appreciated not having to wait days or not being simply referred to a urgent care center.

Review for Sara Day

The staff was amazing at working with 2 small children on their first visit to an eye doctor. The kids were calm, smiling and did great! Thanks so much to the staff for taking the time to help my kids be comfortable with the process!

This office/business should be ranked at the top of all businesses! In my many experiences as a customer at Fenton Family Eyecare, every person in the office acts professional and treats everyone that enters their doors with

respect and full attention. Four members of my family have at some point been patients/customers at Fenton Family Eyecare and we have all walked away extremely happy! Liz R. Fenton, MO

Review for Sara Day

I completely recommend Dr. Day, and her staff. Dr. Day is very professional, knowledgeable, and very nice. Her staff is great too! She and her staff worked with us to get the very best fit, along with the look we wanted with our glasses, and we never felt rushed or a lack of patience from them. The same with contacts-they were not satisfied until we were completely happy. Janet W.

Review for Sara Day

Their office is welcoming and accommodating with a knowledgeable and caring staff. Dr. Day was very thorough with my exam, tests and their results, and took precautions for my specific needs. I had always gone to an eye doctor closer to my house but heard so many wonderful things about Fenton Family Eyecare I had to see what all the hype was about and I'm so glad I did! Dr. Day and Mary H took care of me as if I was their own child that made me feel much more at ease. You're not just any customer there, you're treated with personalized care and attention. I would recommend anyone to Fenton Family Eyecare! :)

Dr. Day and the ladies in the office are wonderful. I knew this walking in, as it is why people recommended I swap from my old doctor. Even still, I was surprised at just how friendly and helpful everyone was. I walked out smiling and will be recommending to everyone!

Review for Sara Day

Fenton Family Eyecare was fantastic as I got past denial and made the leap to get glasses. They were very hands on with information on lens types, frames and coverage, as well as patient in giving me their opinion on how frames looked on me! They are friendly when I call or walk in, and are focused on making sure my experience goes well. We are lucky to have Dr. Day and her entire staff located so close by!

Fenton Family EyeCare is number one in my book, The minute you walk in the door you feel like you are with family taking care of only you!! Dr. Day is wonderful and spends time with you finding out what is best for your lifestyle. The staff has such attention to detail, you walk out knowing you bought the right glasses or contacts. Whether you have been here for years or this is your first time you will have this same feeling when you also walk through the doors I promise. Thank you Dr. Day and staff for everything you do.
